#### II.1.4) Short description of the contract or purchase(s):

[Fabrick Housing Group](#) was created in 2008 by bringing together two successful Tees Valley based Registered Social Landlord (RSL) companies; Tees Valley Housing, a traditional housing association and Erimus Housing, formed from the large scale voluntary transfer of properties from Middlesbrough Council. Norcare, a Newcastle based charity providing supported housing services to vulnerable people, joined the Group in July 2012. The partnership means the companies can share regeneration and development expertise, resources, skills and knowledge to ensure greater efficiencies and enhanced services for all residents. Together, the partners in the Group manage more than 15,000 homes, from North Tyneside in the north to York in the south, with the majority of homes in Middlesbrough and Stockton-on-Tees.

Further information is available on the Group's website [www.fabrickgroup.co.uk](http://www.fabrickgroup.co.uk).

This framework agreement will be accessible by UK Public Sector Bodies – including but not limited to Local Authorities, Central Government Departments, NHS Bodies and Police & other Emergency Services. The framework will also be open for use by all other public sector contracting authorities (as defined in Article 1(9) of Directive 2004/18/ EC and implemented by Regulation 3 of the Public Contract Regulations 2006) or their agents. These include but are not limited to central government departments and their agencies, Non-Departmental.

Public Bodies (NDPBs), NHS bodies (including; acute trusts, ambulance trusts, primary care trusts, care trusts, NHS hospital trusts, strategic health authorities, mental health trusts, special health authorities), Local Authorities (as defined in Regulation 3 (2) to (5) of the Public Contracts Regulations 2006 ('the Regulations'), Police Authorities (as defined by Regulation 3 (1) (j) to (p) of the Regulations), Emergency Services, Educational. Establishment (including Schools, Universities, Academies, Colleges of Further Education) and Registered. Social Landlords who have a need to purchase these services. This Framework is being let to complement and not compete with the existing GPS PSN national framework. It offers access to solutions to requirements that do not need to be PSN accredited, thereby reducing the potential for inbuilt cost. It also addresses some specific specialist needs not readily identified within the offering in the GPS PSN contract.

Equally important, because it does not specifically require PSN accredited suppliers, it offers an opportunity for SMEs to bid and potentially win access to Public Sector business. This is totally in keeping with the Government's expressed requirement to open up public sector business to small businesses in general, and those not able to compete for business offered through the GPS PSN framework in particular.

Fabrick Housing Group (the Group) intends to award a Framework contract for Telecommunications and Networks Services for use by itself and other bodies in the Public Sector with particular attention to meeting the specific needs of the Registered Social Landlords' sector, and those of the Education Sector. The Framework contract will form the basis of the financial and contractual arrangements between each Public Sector Body using the Framework and the Service Providers nominated under it.

The nature of services available under the Framework is wide-ranging and is divided into Lots as described below. It is intended to nominate a minimum of 3 and maximum of 6 providers for each Lot, exceptionally these boundaries may be breached if it is deemed in the best interests of potential end users to ensure service provision or better value.

The framework agreement is let on behalf of Fabrick Housing Group, and the Framework Contract will be Contract Managed on their behalf by Dukefield. The tender is also available for Higher Education and Further Education institutions including members of the Crescent Purchasing Consortium and, as per their joint contracting programme, other bodies that could potentially be interested in accessing the agreement include various University Purchasing Consortia and British Museums. The framework agreement will also be open for use by all other public sector contracting authorities (as defined in Article 1 (9) of Directive 2004/18/EC and implemented by Regulation 3 of the Public Contract Regulations 2006) or their agents.

The framework agreement is divided in to the following lots:

Lot 1: Unified Communications Solutions

This Lot covers all encompassing solutions offering for example Desktop Agent/Supervisor, Contact Centre, Video Conferencing, and Email and Text management functionality. Software and hardware offered is expected to include as a minimum the following key deliverables:

- Servers
- Telephony
- Unified Messaging
- IP Phones and Softphones
- Licences
- Implementation
- Operations Support

Lot 2: IP Telephony, Voice over IP services and Call Tariff Packages

This Lot encompasses the provision and support of telephony systems utilising IP networks and/ or IP transmission/ switching. These may be:

- Voice over IP (VoIP) gateways for connection of external calls using PABX systems as proposed in Lot 5 below
- LAN-based IP telephones
- Integrated desktop/ laptop IP telephony applications
- Session Initiated Protocol (SIP) based services for voice calls over internet/ intranet/ extranet services.

Lot 3: Wide Area Network (WAN), Virtual Private Network (VPN) and Broadband Services

This Lot encompasses the provision and support of external digital/ data network connections. These may be:

- Point to Point Leased Lines between customer sites/ locations (WAN)
- Point to Multipoint Leased Lines comprising a Virtual Private Network (VPN)
- Dedicated virtual networks (VPNs) using broadband access network technologies such as ADSL, VDSL, etc.
- Dedicated network services such as direct fibre provision, microwave radio, direct optical links, etc between customer sites/ locations.
- Dedicated or discrete 'always on' access circuits at speeds of 2Mbps to 300Mbps.

Lot 4: Local Area Network (LAN) and associated services

This Lot encompasses the provision and support of digital connections, network equipment and servers, along with associated support services within premises. For the avoidance of doubt, internal LANs within premises can also be extended between premises, where:

- The connection between premises remains within the curtilage of the organisation's property and does not traverse a public highway (unless by means of a communication system described below), or
- The connection is conveyed between premises owned or occupied by the organisation by means of a radio or optical link, or a cable carried within a duct owned by the organisation.

Lot 5: PABX systems, PSTN Lines and Call Tariff Packages

This Lot encompasses the provision and support of switching systems for internal and external telephony, along with associated connections to switched telephony services. These may be:

- PBX systems with dedicated operator functions
- Hybrid Office 'Key Systems'

Lot 6: Mobile Devices, Services and Tariff Packages

This Lot encompasses the provision and support of mobile telephony and data devices, together with associated billing and connection and information services, These include:

- A range of mobile telephones including smartphones
- Mobile data devices for 3G, HSDPA etc including devices providing local personal wifi capability
- Mobile information devices utilising a combination of 3G, HSDPA, 802.x wifi, Bluetooth etc
- Specific Mobile Voice, Text and Data Call Tariff Packages
- Information services to and from mobile or fixed devices which may be offered commercially to the organisation for use by third parties.

Lot 7: Solutions Design and Support

This Lot encompasses all technical and operational design services related to the provision of solutions that comprise various services above as proposed by the bidder. Bidders must:

- Define which of the services proposed above they are able to offer as part of an integrated solution
- Define the scope and extent of design services offered for such solutions
- Define the scope and extent of support services offered for such solutions

Lot 8: Installation and Provisioning Services

This Lot encompasses all technical and operational services related to the provision of solutions offered under Lot 7. These do not include 'basic' provision, installation or implementation of the services offered under Lots 1 to 6, which should be included as part of the service offering and associated price. However, services under this Lot may include:

- Project management of solution implementation

- Co-ordination of solution implementation and installation across multiple suppliers
- Acceptance testing on behalf of the client/ customer

**Lot 9: Maintenance and Management Support**

This Lot encompasses all technical, operational and management support services related to any solutions offered under Lot 7. These do not include 'basic' maintenance and support of the services offered under Lots 1 to 6, which should be defined in the relevant Lot alongside the service offering and associated price. However, services under this Lot may include:

- Overall solution support, e.g. network monitoring and management
- Incident management
- Performance monitoring including utilisation reporting and capacity planning etc

**Lot 10: Billing and Estate Management**

This Lot relates to services offered to ensure the most cost-effective and efficient running of services offered under Lots 1 to 6 and solutions offered under Lot 7. Bidders are invited to describe services they wish to offer to ensure ongoing Best Value/ Value for Money for their clients, including for example:

- Inventory management
- Third Party Billing Analysis and Management etc

**Lot 11: Consultancy Services**

This Lot relates to other telecoms professional services offered by the bidder which do not fall under Lots 1 to 10.

**Lot 12: Partnering Opportunities**

This Lot relates to the use of infrastructure, systems or services offered above as a revenue generating opportunity for an end user/institution. This may include but is not limited to:

- Mobile phone provision, support and call tariffs
- Broadband and Internet services across any WAN/ LAN or other connection provided under this Framework
- Mobile Information Services such as those described in Lot 6.

## Section VI: Complementary information

### VI.1) Information about European Union funds:

The contract is related to a project and/or programme financed by European Union funds  yes  no  
(if yes) Reference to project(s) and/or programme(s):

### VI.2) Additional information: *(if applicable)*

This Framework is being let to complement and not compete with the existing GPS PSN national framework. It offers access to solutions to requirements that do not need to be PSN accredited, thereby reducing the potential for inbuilt cost. It also addresses some specific specialist needs not readily identified within the offering in the GPS PSN contract.

Equally important, because it does not specifically require PSN accredited suppliers, it offers an opportunity for SMEs to bid and potentially win access to Public Sector business. This is totally in keeping with the Government's expressed requirement to open up public sector business to small businesses in general, and those not able to compete for business offered through the GPS PSN framework in particular

#### VI.3.2) Lodging of appeals *(please fill in heading VI.3.2 or, if need be, heading VI.3.3)*

Precise information on deadline(s) for lodging appeals

Fabrick Housing Group will incorporate a minimum 10 day standstill period at the point information on the award of the contract is communicated to tenderers. This period allows unsuccessful tenderers to seek further debriefing from the Contracting Authority before the contract is entered into. Applicants have 2 working days from the notification of the award decision to request additional debriefing and that information has to be provided a minimum of 3 working days before the expiry of the standstill period. Should such additional information be required, please contact the person cited in paragraph 1.1 of this form.

If an appeal regarding the award of a contract has not been successfully resolved the Public Contracts Regulations (SI 2006 no 5) provide for aggrieved parties who have been harmed or are at risk of harm by a breach of the rules to take action in the High Court (England, Wales and Northern Ireland). Any such action must be brought promptly (within 3 months from the time the aggrieved party knew, or ought to have known, about the alleged breach).

Where a contract has not been entered into the court may order the setting aside of the award decision, or order the Contracting Authority to amend any document and may award damages. If the contract has been entered in to the court may order the setting aside of the contract, may award damages and impose a financial penalty on the Contracting Authority. Damages may also be available to any of the parties involved. The purpose of the standstill period referred to above is to allow parties the opportunity to challenge the award decision made by the Contracting Authority and, where appropriate, issue proceedings against the Contracting Authority which shall have the effect of automatically suspending the contract award procedure until the proceedings have been concluded.

**Annex D1 – General procurement**  
**Justification for the award of the contract without prior publication of**  
**a contract notice in the Official Journal of the European Union (OJEU)**  
**Directive 2004/18/EC**

Please provide hereunder a justification for the award of the contract without prior publication of a contract notice in the Official Journal of the European Union. This justification must comply with the requirements of Directive 2004/18/EC.

(In terms of Directive 89/665/EEC on Remedies, the time-limit for application for review referred to in the first indent of Article 2f(1)(a) of this Directive can be reduced if the notice contains a justification of the contracting authority's decision to award the contract without prior publication of a contract notice in the Official Journal of the European Union. In order to benefit from this reduced time-limit, please tick the relevant box(es) and provide the additional information below.)

**1) Justification for the choice of the negotiated procedure without prior publication of a contract notice in the OJEU in accordance with Directive 2004/18/EC**

No tenders or no suitable tenders in response to:

- open procedure,
- restricted procedure.

The products involved are manufactured purely for the purpose of research, experiment, study or development under the conditions stated in the Directive. (for supplies only)

The works/goods/services can be provided only by a particular tenderer for reasons that are:

- technical,
- artistic,
- connected with the protection of exclusive rights.

Extreme urgency brought about by events unforeseeable by the contracting authority and in accordance with the strict conditions stated in the Directive.

Additional works/deliveries/services are ordered under the strict conditions stated in the Directive.

New works/services, constituting a repetition of existing works/services and ordered in accordance with the strict conditions stated in the Directive.

Service contract awarded to the successful candidate or one of them after a design contest.

For supplies quoted and purchased on a commodity market.

For the purchase of supplies on particularly advantageous terms:

- from a supplier which is definitely winding up its business activities,
- from the receivers or liquidators of a bankruptcy, an arrangement with creditors or a similar procedure.

All tenders submitted in reply to an open procedure, a restricted procedure or competitive dialogue were irregular or unacceptable. Only those tenderers were included in the negotiations which have satisfied the qualitative selection criteria.

**2) Other justification for the award of the contract without prior publication of a contract notice in the OJEU**

- The contract has as its object services listed in Annex II B to the Directive.
- The contract falls outside the scope of application of the Directive.

In order to benefit from the reduced time-limit referred to above, in addition to the box(es) to be ticked above, please explain in a clear and comprehensive manner why the award of the contract without prior publication of a contract notice in the Official Journal of the European Union is lawful, by stating in any case the relevant facts and, as appropriate, the conclusions of law in accordance with Directive 2004/18/EC: (500 words maximum)
